## Caskets

Semi-Precious and Stainless Steel  
*By Paul Casket*

Range of Prices \$7384-3688

Prices Effective November 2009

Prices subject to change without notice

**Semi-Precious metal caskets** are manufactured of solid copper or solid bronze. They are crafted from either 32 or 48 oz per square foot material. Bronze is an alloy of copper and tin. Bronze and copper are softer and weaker than steel, however, bronze and copper resist corrosion by forming a patina or layer that is impervious to corrosion. Stainless steel, which is an alloy of iron, also resists rust much better than steel.
